Celebrating Childhood; Celebrating Life

A workshop to Understand the *Spiritual Nature of Children*

Learn FROM children

How to be choicelessly mindful

How to be non-dual and to be 'whole'

How to forgive and forget

How to be non-egoistic

How to involve deeply in total presence

How to be contended

How to be playful and creative

How to be happy for no reason

Finally

How to learn the real world autonomously

Celebrating Childhood; Celebrating

A workshop to understand the spiritual nature of children

THE PARADOX OF MODERN ADULTS

We, who are fragmented and absent all the time are teaching children to be mindful

We who are egoistic, self centred and selfish are teaching children values

We, whose creativity and playfulness have been totally dried-up, are teaching children playfulness and creativity.

We ,who know only how to analyse second-hand information, are destroying the natural ability in children to create knowledge.

Celebrating Childhood; Celebrating

A workshop to understand the spiritual nature of children

FOR WHOM: For anyone who is spiritually oriented to understand how we have destroyed our inherent non-dualistic nature, originality and authenticity, a life rooted in spontaneity, creativity and playfulness and how we get this back by being with children sensitively, being totally open, having trust in life and having deep respect for children's inherent urge to learn and create knowledge.

Any one who wants to take fresh look at the real nature of children and the unexplored human potential.

Parents, grandparents, would-be-parents and teachers who want to understand how teaching damages learning ability, those who are interested in the development of creativity and intelligence and how schooling destroys this.

E K F O U N D A T I O N . I N

Celebrating Childhood; Celebrating

DAY 1: WHO NEED TO CHANGE? Children or parents? Shifting from changing children's behaviour to changing our behaviour.

Understanding the difference in paradigm of children and us.

Exploring the difficulty in understanding inherent nature of children.

DAY 2: UNDERSTANDING THE INHERENT NATURE OF LIFE- TO BE AUTONOMOUS, TO BE IN TRUTH. Why what How children learn?

DAY 3: UNDERSTANDING DO-NOTHING PROCESS OF LIFE The way we learned our mother tongue- no one taught consciously no one learned purposely. Beauty- the effortless response in children.

DAY 4: BIOLOGICAL ADAPTATION TO TWO-DIMENSIONAL REALM

Exploring how children use drawing- essentially a two-dimensional activity to understand the real world.

DAY 5: CREATING LEARNING ENVIRONMENT - Reimagining homes, schools – reducing the damages, developing non- teaching pedagogy.

❖ **DATE & TIME** – 1 2 3 4 5 November 7 PM to 8 30 PM

CONTRIBUTION - Please contribute as you wish:

EKF does not receive any funding from external sources. Individuals like you are supporting our work.

EXISTENTIAL KNOWLEDGE FOUNDATION

Existential Knowledge Foundation is an organization engaged in research on the various aspects of learning and children. Children create their own knowledge about the world when they are left alone and have a conducive environment. Because of the undue importance given to schooling, the natural process of learning in children is badly affected.

How to bring back their natural learning process, how to understand children, how to create a conducive atmosphere for their innate learning process are the issues we address in our research. We conduct workshops for parents, teachers and all those who are engaged with children.

Donations to us will support our 25+ years old research more extensively. This is the need of the hour, particularly, because of the mad rush and competition children are thrown into. We wish to reach all the parents, teachers and others to make them aware of this risk and its consequences.
