

Do Nothing Parenting

LEARN
to observe
CHILDREN

Discover the magic of **No**-parenting

ONLINE WEBINAR for parents.

CONTRIBUTION RS 300

2 September, 7 to 8 30 PM **IST**

ekfoundation.in

Every activity that children do spontaneously is motivated by life.

They are being absolutely natural, spontaneous and authentic

When we impose our will, we totally destroy the natural intelligence of children. They lose their instinct, intuition, observation and the very ability to understand life.

Once we understand the reason behind their actions we would sit back and enjoy the beauty of life

Reimagining homes & schools

CREATION OF LEARNING ENVIRONMENT
INSTEAD OF TEACHING!

We no longer have parents who trust and respect children but have only teachers in the guise of parents.

Modern parents have teacher-minds. Schools subconsciously embed us with the teacher-mind because of our experience of being taught.

LEARN FROM CHILDREN WHAT AND HOW TO LEARN

ekfoundation.in

Why are children
misunderstood?

How does
observation
become biased?

What to observe?

Why to observe?

How to observe?

Almost every single book on children totally misunderstand the child. The best book to read is - CHILDREN THEMSELVES !

Are you applying any of the rules you have learned to bring up children?

TRUST CHILDREN

We are not observing children but judging children as we are observing with reference to many notions in the head.

The Workshop is about how to drop the theories and create environment so that children function as per their inherent abilities and propensities.
